“ I still cannot believe that Jeannette is gone. She fought so valiantly . She loved her life with Steve and all of her pets. We have communicated via emails for several years and when she shared her diagnosis with me I told her that if I could I would take all of her pain from her just so she could continue her love story with Stephen. Just recently her emails seemed to change, as if she knew that her time was getting shorter. She talked about all the tasks she was trying to get done. I told her then that it was ok just to let herself rest.

I am sorry for your loss Steve, As you will never forget her, neither will I .
