“ I remember when I worked at the hospital and he had been hit on his birthday on the way to work. He called me asked if I would find out where his bike was at and also look for some of his belongings that may have been left at the scene; watch and so on. I got to work and he told me of an "ANGEL" of a nurse that spoke with him of his blackhills gold ring and he wanted me to try and find her. Keyword "ANGEL"--they had him on some heavy drugs.....

“ We had been out riding and came around a corner--of course new gravel down--we didn't get hurt but the bike got a little damage so we pushed it to the house. He most surely had something to say about the gravel!!!

“ I remember going to Pec.for the "Easyrider Rodeo" and John and I waked the grounds and people thought he was Willie Nelson--we heard statements and would look at each other and just laugh....
