“ *Had a lot of good times with Mike in our younger days, and then as we grow older it seems we all take that different turn in the road and end up in different places. Seems we lost track of one another over the years but will always remember how he would make us laugh, We started out with cool bikes and ended up with cool cars. I remember he had a black 57 chevy and I now have one just like it and think of him every time I look at it....May you rest in peace my friend*
